EDUCATION

Ph.D. in Operations Research **1979**
University of Minnesota, Minneapolis, Minnesota. Minor in Statistics. Thesis title: "Contributions to Optimal Experimental Design." (Thesis advisor: R. Dennis Cook. Topics: robust design, computer construction of designs, mixture designs.)

M.S. in Operations Research and Statistics **1974**
Rensselaer Polytechnic Institute, Troy, New York.

B.A. with majors in Mathematics and Quantitative Methods **1973**
University of St. Thomas, St. Paul, Minnesota, magna cum laude.

PROFESSIONAL EXPERIENCE

Frank A. Donaldson Chair in Operations Management **2010–Present**
Department of Operations and Management Science, Carlson School of Management, University of Minnesota.

Chair, Supply Chain and Operations Department **2002–2014**
Carlson School of Management, University of Minnesota.

Curtis L. Carlson Professor of Operations and Management Science **2004–2010**
Department of Operations and Management Science, Carlson School of Management, University of Minnesota.

Professor of Operations and Management Science **1992–2004**
Department of Operations and Management Science, Carlson School of Management, University of Minnesota.

Associate Dean of Faculty and Research **1996–2000**
Carlson School of Management, University of Minnesota

Chair, Operations and Management Science Department **1993–1996**
Carlson School of Management, University of Minnesota.

Associate Professor of Management Science **1984–1992**
Department of Operations and Management Science, University of Minnesota. Tenure granted May, 1988.

Senior Statistician **1981–1984**
General Mills, Inc.

Staff Member **1979–1981**
Statistics Group, Los Alamos National Laboratory.

HONORS AND AWARDS

Brumbaugh Award **2014**
American Society for Quality, for best paper published in the area of quality control.

Jack Youden Prize **2014**
American Society for Quality and the American Statistical Association, for the best expository paper published in *Technometrics* in 2013.

Jack Youden Prize **2012**
American Society for Quality and the American Statistical Association, for the best expository paper published in *Technometrics* in 2011.

Lloyd S. Nelson Award **2012**
Statistics Division of the American Society for Quality, for the published article having the “greatest immediate impact to practitioners” in 2011.

Brumbaugh Award **2011**
American Society for Quality, for best paper published in the area of quality control.

Fellow of the American Statistical Association **2011**

Lloyd S. Nelson Award **2010**
Statistics Division of the American Society for Quality, for the published article having the “greatest immediate impact to practitioners” in 2009.

Brumbaugh Award **2009**
American Society for Quality, for best paper published in the area of quality control.

Examiner, Malcolm Baldrige National Quality Award **1997**
National Institute of Standards and Technology.

National Best Paper Award in the area of CAE/CAD/CAM **1992**
American Society of Mechanical Engineers.

Brumbaugh Award **1991**
American Society for Quality, for best paper published in the area of quality control.

ELECTED OFFICES

President, Twin Cities Chapter of the ASA. **1985–1986**
American Statistical Association. Organized six activities for 1985–1986.

Chair, Section on Physical and Engineering Sciences **2001**
American Statistical Association

EDITORIAL BOARDS

<i>American Statistician</i> , Associate Editor	2011–2014
<i>Journal of Quality Technology</i> , Editorial Review Board,	2014–Present
<i>Journal of Quality Technology</i> , Department Editor, Data Mining	2011–2014
<i>Technometrics</i> , Associate Editor	2000–2003
<i>Statistics and Computing</i> , Associate Editor	1990–1996
<i>Journal of the American Statistical Association</i> , Associate Editor	1989–1991
<i>Journal of Quality Technology</i> , Department Editor	1988–1992
<i>Journal of Statistical Computation & Simulation</i> , Associate Editor	1987–1990

TEXTBOOKS

1. Kutner, M., Neter, J., and Li, W. *Applied Linear Statistical Models*, 5th Ed., McGraw-Hill/Irwin, 2005.
2. Kutner, M., and Neter, J. *Applied Linear Regression Models*, 4th Ed., McGraw-Hill/Irwin, 2004.
3. Nachtsheim, C., and Kutner, M. *Business Statistics for Data-Driven Decision Making*, in progress.

CONFERENCE PRESENTATIONS AND INVITED TALKS

1. "A Comparison of Algorithms for the Construction of Exact D-Optimal Designs," at the 1979 Joint National Meetings of the American Statistical Association.
2. "Modeling Hydrocarbon Reservoirs: Parameterization, Validation and Prediction," Department of Statistics, Princeton University, February, 1980 (invited).
3. "Combining Evidence with Dependent Tests," New Mexico Chapter of the American Statistical Association, April, 1980.
4. "Modeling Hydrocarbon Reservoirs: Parameterization, Validation and Prediction," 1980 ORSA-TIMS Conference, Colorado Springs.
5. "Model Robust, Linear Optimal Designs," 1981 Joint National Meetings of the American Statistical Association.
6. "An Analysis of the k-exchange Algorithm" 1982 Joint National Meetings of the American Statistical Association (invited).
7. "The Use of Optimal Experimental Designs in Practice," Twin Cities Chapter of the American Statistical Association, March, 1982 (invited).
8. "Automated Design of Experiments: The State of the Art," 1985 Fall Technical Conference of the American Statistical Association and the American Society for Quality Control (invited).
9. "Automated Design of Experiments: The State of the Art," 1985 Fall Technical Conference of the American Statistical Association and the American Society for Quality Control (invited).
10. "Tools for Computer Aided Design of Experiments: Review and Comment," Department of Applied Statistics, E. I. DuPont de Nemours & Co. Wilmington, 3/20/86, (invited - expenses reimbursed)
11. "Computer Aided Design of Experiments," 1986 Annual Meeting of the Delaware ASQC, 3/21/86, (invited).
12. "On Diagnostics for Mixed Model Analysis of Variance," 1986 Joint National Meetings of the American Statistical Association, Chicago, Illinois (invited).
13. "Tools for Computer-Aided Design of Experiments," 1987 Joint Meetings of the American Statistical Association, San Francisco, California (invited).
14. "Optimal Design in the Presence of Irregularly Constrained Design Spaces," (given by R. Meyer), 1987 Joint Meetings of the American Statistical Association, San Francisco, California (invited).
15. "Recent Results in Optimal Design," A 120 minute presentation to the NSF-sponsored Workshop on Design for Computational Experiments, Santa Fe, New Mexico, September 21-22, 1987 (invited, expenses reimbursed).

16. "D-optimal Blocking of Response Surface Designs," Department of Statistics, Iowa State University, 2/22/88 (invited).
17. "On the Development of an Expert System for the Design of Experiments," School of Statistics, University of Minnesota, 5/5/88 (invited).
18. "Expert and Nonexpert Systems for the Design of Experiments," Chicago Chapter of the American Statistical Association, Chicago, Illinois, 6/14/88 (invited, expenses reimbursed).
19. "Computational Models of Strategies for the Design of Experiments," Design, Quality and Reliability Research Conference, AT&T Bell Laboratories, Murray Hill, New Jersey, October 6, 1988.
20. "Expert Systems for Experimental Design," Statistical Consulting and Artificial Intelligence Groups, 3M Corporation, St. Paul, Minnesota, October 31, 1988.
21. "Expert Systems for Experimental Design," Twin Cities Chapter of the American Statistical Association, Minneapolis, Minnesota, November 18, 1988.
22. "Experimental Design and the Taguchi Methods: New Developments in Product and Process Design," Mars, Inc. Technical Directors, 12/12/88 and 2/28/89 (keynote).
23. "Achieving Higher Levels of Quality and Industrial Productivity with Experimental Design," Conferences sponsored by BBN Software Products Corporation in Dallas, January 11, 1989 and Houston, January 12, 1989 (keynote).
24. "Computer-Aided Construction of Mixture Designs for Constrained Regions of Higher Dimensions," (with R. Meyer), 21st Symposium on the Interface: Computing Science and Statistics, April 10, 1989, Orlando, Florida.
25. "Computer-Aided Blocking of Factorial and Response Surface Designs," Gordon Research Conference on Statistics and Chemistry, July 31-August 4, 1989, New Hampton, New Hampshire.
26. "Error-Robust Design of Experiments, with Application to Problems in Chemistry and Chemical Engineering," Chemometrics Conference, Texas A&M University, College Station, November 10, 1989.
27. "Tools for Computer-Aided Design and Analysis of Taguchi Experiments," (with W. Morris) Winter Meetings of the American Statistical Association, January 1990, Orlando, Florida.
28. "Computer Based Tools for Robust Product Design," 1990 Delaware Chapter Meeting of the American Statistical Association, April 30, 1990, Newark, Delaware.
29. "Statistical Techniques for Traffic Volume Estimation," Transportation Research Conference, Sponsored by the U.S. Department of Transportation and the Center for Transportation Research, May 7, 1990, St. Paul, Minnesota.
30. "Design of Experiments: Power Tools for Continuous Improvement," Exxon Corporation Quality Conference, March 7, 1990, Houston, Texas (keynote).
31. "New Developments in Computer-Aided Design of Experiments," Technical Track, Exxon Corporation Quality Conference, March 7, 1990, Houston, Texas.
32. "Design of Experiments for Product and Process Development," Exxon Engineering Research Conference, Florham Park, New Jersey, August 21, 1990 (keynote).
33. "The Bounded Fedorov Exchange Algorithm," Workshop on the Design of Experiments for Quality and Productivity Improvement, University of Waterloo, Waterloo, Ontario, July 16, 1990.
34. "Design of Experiments for Product and Process Development," Exxon Engineering Research Conference, Florham Park, New Jersey, August 21, 1990 (keynote).
35. "Design of Experiments for Product and Process Development," Exxon Engineering Research Conference, Florham Park, New Jersey, August 21, 1990 (keynote).
36. Session Discussant: "University Programs in Chemometrics," Joint National Meetings of the American Statistical Association, Anaheim, California, August 8, 1990.

37. "The Coordinate Exchange Algorithm," (with R. Meyer) Joint National Meetings of the American Statistical Association, Anaheim, California, August 8, 1990.
38. "Statistical Techniques for Traffic Volume Estimation," Transportation Research Conference, Sponsored by the U.S. Department of Transportation and the Center for Transportation Research, November 29, 1990, Provo, Utah.
39. "Integrated Methods for Total Quality Improvement," Conferences sponsored by BBN Software Products Corporation in Toronto, Canada, December 5, 1990 and Raleigh-Durham, North Carolina, December 6, 1990 (keynote).
40. "Optimizing Cement Waste Immobilization: A Case Study in Experimental Planning," (with L. M. Moore). 1991 IMS Meetings, Philadelphia, PA, June 1991
41. "Computer Software for the Design of Experiments," 1992 Fall Technical Conference of the ASA and ASQC, Philadelphia, PA, October, 1992
42. "What Do You Do When Standard Designs Don't Fit? An Introduction to Computer-Aided Design of Experiments," Short Course sponsored by the Cleveland Chapter of the American Statistical Association, May 10, 1993, Cleveland, Ohio.
43. "Teaching Design of Experiments Using Statistical Software," a pre-conference short course. C. J. Nachtsheim and M. E. Johnson, Quality and Productivity Research Conference, May, 2004.
44. "Custom DOE Using JMP," a pre-conference short course. C. J. Nachtsheim and B. Jones, Quality and Productivity Research Conference, June, 2005.
45. "The Synergistic Roles of Optimal and Classical Designs for Quality Improvement," Quality and Productivity Research Conference, June, 2006.
46. "Custom Design of Experiments Using JMP software: No Pain, Just Gain." Keynote presentation, SAS Institute sponsored workshop, Minneapolis, MN, June 2006.
47. "Custom Designing with JMP: A New Paradigm for DOE," (Invited.) JMP Innovators Summit, Traverse City Michigan. Keynote on the use of optimal design for industrial product and process improvement. October, 2007
48. "Custom Designing with JMP: A New Paradigm for DOE," Keynote for one-day conference on the use of optimal design for product and process development, sponsored by SAS Institute. June, 2007.
49. "The Role of Classical and Optimal Designs for Quality Improvement," (invited). University of Antwerp, Antwerp, Belgium. January, 2008.
50. "Split-Plot Designs: What? Why? How?" 2008 Joint Statistics Meetings of the American Statistical Association. August, 2008.
51. "Screening Designs for Model Discrimination," (invited), University of Central Florida, Department of Statistics. February, 2008.
52. "Is there a new paradigm for industrial experimental design?" (Invited) Joint National Meetings of the American Statistical Association, August 2009.
53. "Split-Plot Designs: What? Why? How?" (Invited) Co-presented with Bradley Jones, SAS Institute. Fall Technical Conference of the ASA/ASQ, Indianapolis, IN. This was one of two papers published in 2009 in the Journal of Quality Technology that were chosen for presentation in the JQT session. November, 2009.
54. "Design and Analysis of Supersaturated Experiments." (Invited.) School of Statistics, University of Minnesota, November, 2009.
55. "Design and Analysis of Supersaturated Experiments." (Invited.) Fall Technical Conference of the ASA/ASQ, Indianapolis, IN, November, 2009.

56. "CORE Principles for Technical Presentations: Clarity, Organization, Rapport, Enthusiasm." Invited presentation. 2011 Joint Statistical Meetings, Miami Florida, August 2010.
57. "Minimal Aliasing Designs, with Application to Factor Screening in the Presence of Second-Order Effects," (Invited), Department of Statistics, Penn State University, November 18, 2010.
58. "Minimal Aliasing Designs, with Application to Factor Screening in the Presence of Second-Order Effects," (Invited), Department of Statistics, Fudan University, December 12, 2010.
59. "Minimal Aliasing Designs, with Application to Factor Screening in the Presence of Second-Order Effects," (Invited), ASFM 2010: International Conference on Applied Statistics and Financial Mathematics, Hong Kong Polytechnic University, December 14, 2010.
60. "Efficient Designs with Minimal Aliasing." Invited *Technometrics* session presentation, Spring Research Conference of the ASA, Northwestern University, Chicago, IL, June 22, 2011.
61. "CORE Principles for Technical Presentations: Clarity, Organization, Rapport, Enthusiasm." Invited presentation. 2011 Joint Statistical Meetings, Miami Florida, August 2011.
62. "A Class of Three-Level Designs for Definitive Screening In the Presence of Second-Order Effects." Invited *Journal of Quality Technology* session presentation. Fall Technical Conference of the ASA and ASQ, Kansas City, MO, October 13, 2011.
63. "DOE: Is the Future Optimal?" Keynote presentation, Fall Technical Conference of the ASA and ASQ, Kansas City, MO, October 13, 2011.
64. "Efficient Designs with Minimal Aliasing," Joint Statistical Meetings, Miami Florida, August 2011.
65. "Definitive Screening Designs," JMP Discovery Summit, Denver, CO, September 14, 2011.
66. "CORE Principles for Technical Presentations: Clarity, Organization, Rapport, Enthusiasm," 2012 Joint Statistical Meetings, San Diego, CA, July 29, 2012. Invited Presentation.
67. "Experimental Design for Engineering Dimensional Analysis," 2012 Joint Statistical Meetings, San Diego, CA, July 30, 2012. Invited presentation.
68. "Exploring Best Practices in the Design of Experiments," Keynote presentation, JMP Explorer's Conference, SAS Institute, Cleveland, OH, August 14, 2012.
69. "Exploring Best Practices in the Design of Experiments," Keynote presentation, JMP Explorer's Conference, SAS Institute, Austin, TX, August 16, 2012.
70. "Designing Experiments: History, Principles, and Some Recent Advances," Carlson Research Lecture, November 29, 2012.
71. "Exploring Best Practices in the Design of Experiments," Keynote presentation, JMP Explorer's Conference, SAS Institute, Boston, MA, December 11, 2012.
72. "CORE Principles for Technical Presentations: Clarity, Organization, Rapport, Enthusiasm," 2013 Joint Statistical Meetings, Montreal, Canada. Invited, featured ASA presentation.
73. "Experimental Design for Engineering Dimensional Analysis," Featured *Technometrics* paper from 2013, Spring Research Conference, UCLA, June, 2013.
74. "Exploring Best Practices in the Design of Experiments," Keynote presentation, JMP Explorer's Conference, SAS Institute, Chicago, IL, June 19, 2013.
75. "Exploring Best Practices in the Design of Experiments," Keynote presentation, JMP Explorer's Conference, SAS Institute, Philadelphia, PA, August 12, 2013.
76. "Definitive Screening Designs with Added Two-Level Categorical Factors," *Journal of Quality Technology* invited paper session, Spring Research Conference, UCLA, June, 2013
77. "Experimental Design for Engineering Dimensional Analysis," Department of Industrial Engineering, Arizona State University, invited seminar, November 8, 2014.

78. "Big Data, Predictive Analytics, and Quality: Promise or Peril," ASQ Technical Communities Conference 2014, October 31, 2014, Featured presentation.
79. "Recent Advances in Definitive Screening," Department of Statistics, University of Georgia Recent Developments in Definitive Screening, October 23, 2014, invited presentation.
80. "Definitive Screening Designs," 2014 Fall Technical Conference, Richmond, VA, October 2, 2014.
81. "Definitive Screening Designs: What, Why, and How," Fall Technical Conference, October 1, 2014, Richmond, VA, invited pre-conference workshop.
82. "Exploring Best Practices in the Design of Experiments," Keynote presentation, JMP Explorer's Conference, SAS Institute, Huntsville, AL, August 28, 2014.
83. "Blocking Schemes for Definitive Screening Designs," Building Statistical Methodology and Theory Conference, Mile, Yunnan, China, invited presentation, July 7, 2014.
84. "Blocking Schemes for Definitive Screening Designs," invited presentation, Spring Research Conference, UCLA, Los Angeles, CA, May 28, 2014.
85. "Exploring Best Practices in the Design of Experiments," Keynote presentation, JMP Explorer's Conference, SAS Institute, Houston, TX, February 10, 2014.
86. "Exploring Best Practices in the Design of Experiments," JMP Explorers Conference Keynote, February 10, 2015, Houston, Texas.
87. "Exploring Best Practices in the Design of Experiments," JMP Explorers Conference Keynote, April 21, 2015, Atlanta, Georgia.
88. "Design and Analysis of Definitive Screening Designs," Invited 3M Presentation, Maplewood, Minnesota, April 24, 2015.
89. "Using Custom Designs and Definitive Screening Designs," Two-Day Invited 3M Workshop, Maplewood, Minnesota, May 20-21, 2015.
90. "CORE Principles for Technical Presentations: Clarity, Organization, Rapport, and Enthusiasm," Joint Statistics Meetings, Seattle, Washington, August 3, 2015.
91. "Using Custom Designs and Definitive Screening Designs," Corning R&D Invited Two-Day Workshop, Corning, New York, August 25-26, 2015.
92. "Definitive Screening Designs: What, Why, and How," Fall Technical Conference, Invited One-Day Workshop, Houston, Texas, October 7, 2015.
93. "Design and Analysis of Definitive Screening Experiments," Medtronic Annual R&D Conference, Invited One-Day Workshop, October 15, 2015, Fridley, Minnesota.
94. "Design and Analysis of Definitive Screening Designs," Annual Zyskind Lecture, Department of Statistics, Iowa State University, Ames, Iowa, October 19, 2015
95. "CORE Principles for Technical Presentations: Clarity, Organization, Rapport, and Enthusiasm," Joint Statistics Meetings, Chicago, Illinois, July 31, 2016.
96. "Exploring Best Practices in the Design of Experiments," Keynote presentation, JMP Explorer's Conference, SAS Institute, San Jose, CA, April 6, 2016.
97. "Exploring Best Practices in the Design of Experiments," JMP Explorers Conference Keynote, August 31, Pittsburgh, PA.
98. "DOE: Is the Future Optimal," JMP Discovery Conference keynote address, September 27, 2016, Cary, NC.

FUNDED RESEARCH

3M McKnight Foundation Grant, 1987, \$15,000, “Methods for Constructing Optimal Experimental Designs on Convex Design Spaces”.

U. S. Department of Transportation and the Center for Transportation Studies, 1989, \$51,000, to develop statistical methods for estimating traffic volume estimation.

U. S. Department of Transportation and the Center for Transportation Studies, 1990, \$29,000, to develop statistical methods for estimating traffic volume estimation.

Operations Management Center, Curtis L. Carlson School of Management, 1991-1992. “Design of Experiments for Durability Testing: Reducing Cycle Times in Product Development,” \$9,027.

UNDERGRADUATE COURSES TAUGHT

“Introduction to Computers in Business,” University of St. Thomas.

“Introduction to Engineering Statistics,” University of Minnesota.

“Advanced Managerial Statistics,” University of Minnesota.

GRADUATE COURSES TAUGHT

“Topics in Experimental Design,” PhD Seminar in the School of Statistics, University of Minnesota, co-taught with Professor R. Dennis Cook.

“Statistics for Decision Making,” University of St. Thomas, Graduate Program in Management.

“Introduction to Business Statistics: Sources, Presentation and Analysis,” University of Minnesota, Carlson School of Management.

“Applied Statistical Methods I: Regression Analysis,” University of Minnesota, Carlson School of Management.

“Applied Statistical Methods II: Multivariate Methods,” University of Minnesota, Carlson School of Management.

“Applied Statistical Methods III: Analysis of Variance and Experimental Design,” University of Minnesota, Carlson School of Management.

“Research Foundations in Applied Statistics,” University of Minnesota, Carlson School of Management.

“Statistics for Decision Making,” Warsaw School of Economics, Joint Warsaw School/Carlson School Executive MBA Program.

“Statistics for Decision Making,” Vienna University of Economics and Business, Joint Vienna University/Carlson School Executive MBA Program.

“Statistics for Decision Making,” Lingnan College of Sun-Yet Sen University, Joint Lingnan/Carlson School Executive MBA Program.

INDUSTRIAL COURSES AND WORKSHOPS

“Statistics with JMP,” (24 hours) Carestream, Inc., Maplewood, MN, Fall, 2014.

“Regression and ANOVA modeling with JMP,” (16 hours) Carestream, Inc., Maplewood, MN, Fall, 2014.

“Introduction to SAS,” General Mills, Inc.

“Introduction to Computing and CMS,” General Mills, Inc.

“Introduction to Statistics for Product Developers.” General Mills, Inc.

“Design of Experiments,” General Mills, Inc.

“Statistical Experimental Design: Two-level Factorial and Response Surface Experiments,” Los Alamos National Laboratory.

“2-level Factorial Experiments in Food Product Development (16 hours),” M&M Mars, Inc.

“Response Surface and Taguchi Experiments in Food Product Development (16 hours),” M&M Mars, Inc.

“2-level Factorial Experiments in Food Product Development (16 hours),” Uncle Ben’s, Inc.

“Response Surface and Taguchi Experiments in Food Product Development (16 hours),” Uncle Ben’s, Inc.

“Design and Analysis of Experiments (32 hours),” Guidant Corporation.

“Design and Analysis of Experiments (32 hours),” Boston Scientific, Inc.

“Logistic Regression Modeling” (with Dr. Michael Kutner). This was the featured two-day short course at the Joint Statistical Meeting in Indianapolis in 2000.

“Definitive Screening Designs: What, Why, and How,” (with Dr. Bradley Jones). The was a featured one-day short course at the Fall Technical Conference, Richmond, VA, October, 2014

DOCTORAL THESIS SUPERVISION

Chen-en Ko, Accounting, (co-supervision, with A. Bailey, G. Duke), 1986. Placement: University of California, Riverside.

Young-Il Kim, Management Sciences, 1987. Placement: ChungAng University

Ruth Meyer, Management Sciences 1989. Placement: St. Cloud State University

Richard Cheng, Operations and Management Science, 1991. Placement: Ohio State University

Lexin Li, School of Statistics, 2003. Placement: North Carolina State University

Vincent Agboto, School of Statistics, 2007. Placement: Battelle Memorial Institute

PROFESSIONAL MEMBERSHIPS

American Statistical Association

American Society for Quality

The Institute for Mathematical Statistics

PROFESSIONAL ACTIVITIES

Served as Conference Program Chair and General Chair for the 2006 Quality and Productivity Research Conference, held at the Carlson School of Management, University of Minnesota

Served as referee/reviewer for: *Technometrics*, *Journal of the American Statistical Association*, *Journal of Statistical Computation and Simulation*, *Management Science*, *Auditing*, *The American Statistician*, *The Annals of Statistics*, *Journal of Marketing Research*, *Journal of Statistical Planning and Inference*, *Communications in Statistics*, *Quality and Reliability International*, and others.

Organized invited session, "Diagnostics and Estimation in Mixed Model Analysis of Variance," 1986 Joint National Meetings of the American Statistical Association.

Organized invited sessions: "Computer-Aided Design of Experiments," and "Design of Experiments," 1987 Joint Meetings of the American Statistical Association.

Session Chair: "Experimental Design Issues in Computer Simulation," 1989 Joint Meetings of the American Statistical Association, Section on Physical and Engineering Science and the Section on Quality and Productivity, Washington, D.C., August 7, 1989.

Conference Program Chair: 1993 Fall Technical Conference of the American Statistical Association and the American Society for Quality Control: "Developing Continuous Improvement Through Statistics," October, 1993, Rochester, New York.

SELECTED RECENT CONSULTING ACTIVITIES

National Marrow Donor Program, develop predictive analytics model to determine likelihood of donation by members of donor candidate database.

Carestream, Inc., develop and deliver training programs in industrial statistics, regression and ANOVA modeling, and the design of experiments.

C. H. Robinson, Inc. Develop predictive analytics model guide determination of purchase and sale of truck-based domestic shipments.

Expert statistical witness, Madia Law Firm, represented management in an employee lawsuit for back wages. Testified in jury trial; jury accepted my recommendations without exception.

Expert statistical witness, Robins, Kaplan, Miller & Ciresi L.L.P, who represented Delta Dental in insurance fraud suit against a large dental practice.

Expert statistical witness in highway workers cancer/workers compensation suit against the State of Minnesota.

Expert statistical witness, Kech, Mahin & Cate, software copyright infringement suit

SAS Institute, design of statistical software and training programs

Delta Dental, Analysis of dentist scoring model, and related expert witnessing

Guidant Corporation—Training and consulting in the design of experiments

TENA Companies—Product development consultant

Cummins, Inc.—Data mining for product pricing

Expert statistical witness, Anoka County, gender discrimination lawsuit.

Australian Health Management Group—Evaluation of dentist performance scoring model

The Proctor & Gamble Company—Workshops in statistical model selection and model validation
